Dinnerware

Classic, investment-quality dinnerware and serveware blends timeless style with enduring performance. When it comes to fine dining, there should be no compromise.

Every detail matters

Each product is listed with key design features, defined below, that can enhance the durability of your dinnerware.

Fully Vitrified: Products are fired at temperatures greater than 2300°F to achieve a stronger and harder material that minimizes absorption of moisture, odor and bacteria.

Polished Foot: Smooth foot helps to reduce plate-to-plate surface scratching.

Highly Polished Foot: Achieves a greater degree of scratch resistance.

Glazed Foot: The highest level of durability, ensuring virtually no plate-to-plate surface scratching.

Wood Trivet Care and Handling

- Wood trivets are food safe and can be used for plating and serving.
- Before first use, wash in warm water with mild dishwashing soap. Rinse and dry thoroughly.
- Each carbonized cedar plank holds and protects the hot cast iron piece from the table and the end user.
- Food safe finish.
- Hand wash only; do not soak.

Connect guests to the Experience

Flatware leaves an undeniable impression with its feel, heft, design and finish. In fact, a Libbey® survey shows that guests rate weight/feel and shape as the most important features of flatware while dining out. Never underestimate its impact on your presentations.

Put guests in touch with a richer experience, with quality flatware that's a delight to hold and behold.

Separate yourself from the competition with a higher grade of refinement. Our Reserve by Libbey® flatware collection, available in 18/10, opens up your presentations to a breadth of new colors and finishes.

LIBBEY

The Libbey 18/8 collection

Inspired designs, exceptional durability

Our 18/8 selection delivers true investment-quality flatware that elevates the way your guests connect to the tabletop experience. Their added weight and strength create the impression of quality from the first touch. Made from type 304 stainless steel, our 18/8 offering features an 8-12% nickel content that gives stainless steel a brighter shine and additional protection against rust and corrosion.

Ada and Clayton are specifically designed for the unique needs of the healthcare industry to help reduce stress on the hand and wrist.

This flatware designed for healthcare and senior living settings provides a more pleasing balance of form and function. These ergonomic designs elegantly combine style and intuitive elements to ease handling while retaining a stunning appearance.

Large, arched, hollow handles are lighter and easier to handle.

Custom stamping guide

Custom Stamping/Engraving Guide – Flatware

All Libbey® Tableware flatware, serving pieces and steak knives can be customized to feature your name and/or logo on either the front or back, as permitted by the pattern design. Choose from many typeface designs or have us create stamps from your logo, crest or other artwork.

Most stamping jobs require at least two dies, and usually three, so that lettering will be in proper proportion to handle sizes. Up to five different die sizes may be required to stamp an extensive flatware service. Steak knives can be laser-engraved on either blade.

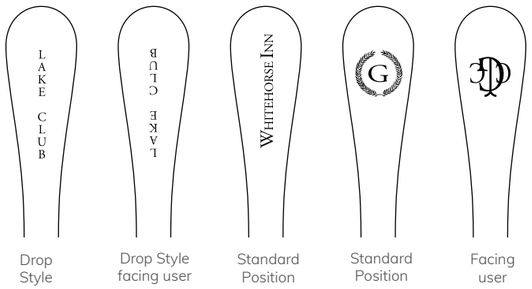

Custom stamping or laser engraving adds approximately 6-8 weeks to normal shipping requirements upon receipt of purchase order and approved artwork.

Please contact your Libbey® sales representative for more details on how to make your own unique “statement” by customizing your tabletop flatware.

Custom Engraving Guide – Holloware

Special monograms, crests or logos for reproduction by machine engraving on holloware require a customized stencil. The cost of engraving a logo, monogram or crest on a piece of holloware will vary depending upon the complexity of the design and will be determined by the engraver upon receipt of the artwork along with location and size instructions. A drawing will be prepared and sent for your approval showing size and position on the item. This drawing must be signed and returned before an engraved order will be processed.

Drop Style | Drop Style facing user | Standard Position | Standard Position | Facing user

All engraving must be on a surface area that lends ample space to complete the lettering. The final location is subject to the engraver’s approval. Stock lettering styles shown above do not require a stencil charge unless the customer requires a larger size than is possible using the stock stencils.

All orders must include style of lettering, size of letters and position of each article where lettering is desired.

Orders for engraving machine lettering add approximately 6-8 weeks to normal shipping requirements. Examples of letter engraving for logos and stamping are illustrated above.

Silverplating and Tumbling Options*

Many of our flatware and holloware items can be silverplated on a made-to-order basis and subject to shipment approximately 6 weeks after receipt of the order at Libbey, provided there is sufficient stainless steel stock. Many items can also be tumbled to create a vintage look, subject to the same lead times. Customer orders for silverplated or tumbled merchandise are non-cancelable and non-returnable once an order has been processed.

Please contact your Libbey® sales representative for more details on silverplating items.

*Made to order, subject to lead times.

We developed our finest glassware collection with you in mind — the bartenders, mixologists and sommeliers who have a story to tell through beer, wine and spirits.

Our premium Reserve by Libbey glassware collection represents the pinnacle of Libbey craftsmanship, with superior, color-free optical purity, precise balance and enduring performance.

The beauty of Reserve is all in the details — stemware with exquisitely thin walls and flat feet, plus rocks and tumblers with thick bases and windowpane clarity. Our fine HD2 laser-cut rims — smoothed and perfected with a kiss of fire — enhance the drinking experience and offer visual appeal that guests will notice.

Together, this perfect marriage of form and function acts as a blank canvas for your creations, enveloping guests in a sensory experience that commands respect, attention — and a second pour.

NEW CONTOUR DIAMOND

Captivate guests and protect profits with Contour Diamond, whose geometric shape increases aeration, while a tapered rim captures aromas and prevents spillage.

Pour control options use the curve of bowl to mark the perfect pour, preventing excess pours and saving the operator thousands of dollars over time.

Wine Guide

Light-bodied red wines

No. 7515 shown

For these wines with fewer tannins and more subtle flavor, a large bowl and wide mouth allow the wine to breathe, enhancing delicate flavors.

Pair with Beaujolais, Pinot Noir, Sangiovese, Cabernet Franc

Full- and medium-bodied red wines

No. 7520 shown

These have the highest tannins resulting in complex flavors. A tall bowl directs the wine to the back of the palate for a richer tasting experience.

Pair with Bordeaux, Cabernet Sauvignon, Merlot, Malbec, Shiraz, Syrah

Light- and medium-bodied white wines

No. 7519 shown

Perfect for lighter, more delicate white wines with less alcohol. A smaller bowl concentrates subtle aromas and directs the wine to the tip of the tongue for better appreciation of sweeter flavors.

Pair with Riesling, Moscato, Pinot Grigio, Pinot Gris, Petit Chablis

Full-bodied white wines

No. 7553 shown

For heavier wines with a fuller body, a wide bowl enhances complex aromas while directing the wine to the back of the tongue, heightening flavor intensity.

Pair with Chardonnay, Sauvignon Blanc, Gewürtztraminer, White Zinfandel

Champagne and sparkling wines

No. 7500 shown

A tall, narrow glass maintains flavor concentration and displays effervescence, enhancing presentation.

Pair with Champagne, Prosecco, Lambrusco

Dessert wines

No. 7531 shown

A smaller glass enables proper portioning of these higher alcohol wines. A rounded bowl directs the wine to the back of the mouth, perfecting the sweetness.

Pair with ice wine, Sauternes, Moscato

The right
Glass
for what's trending in spirits

The basics on traditional glassware for spirits.

Today, patrons are seeking creations by rock star mixologists – with showmanship, interaction and education that draws them to the experience. The right glassware can set the stage for dramatic and engaging presentations.

Spirits Guide

Spirits served neat

No. 1009413 shown

A rounded design with heavy base is perfect for swirling "neat" drinks – unmixed spirits served at room temperature – to open up the flavors. The glass narrows at the top to concentrate and enhance the complex aromas.

Spirits served on the rocks

No. 15481 shown

The heavy weight and wide top are perfect for serving the finest spirits on the rocks, the large capacity allowing ample room for ice.

Brandy/Cognac standard

No. 3709 shown

A wide bowl creates surface area to help evaporate the liquor and enhance flavor. The narrow top concentrates aromas, and the rounded bottom is ideal for cupping with your hand to warm the brandy.

Martini standard

No. 7512 shown

A very wide bowl allows for maximum aromatics (especially the juniper and botanicals in a gin martini). The glass can be held by the stem to prevent warming, and the cone shape keeps ingredients from separating.

Margarita standard

No. 8439 shown

A Mexican cocktail made from tequila, orange liqueur and lime juice, margaritas are often rimmed with salt. The stem helps prevent warming the drink, and the very wide top enables an optimal salt-to-drink ratio.

Liqueur standard

No. 3826 shown

The small capacity (1-3 oz.) and conical shape is made for serving small amounts of sweet distilled spirits flavored with fruit, herbs, flowers, nuts or spices.

Highball or Collins

No. 2518 shown

This family of cocktails is made with a base spirit and a non-alcoholic carbonated mixer served with ice, requiring a tall glass for proper proportioning of ingredients.

Specialty glassware

No. 3617 shown

Whether it's a signature mojito, frozen cocktail or premium Long Island Iced Tea, specialty glassware is designed to create a powerful presentation of the finest signature cocktails.

The right Glass for what's trending in beer

The fundamentals of PAIRING the RIGHT GLASS with the RIGHT BEER.

The craft beer culture continues to drive the demand for diverse selection at the bar. Offer your guests the complete experience by presenting beer and beer cocktails in just the right glass.

Beer Guide

Pilsners

No. 527 shown

Perfect for serving classic pilsners and other pale lagers, Pilsner glasses showcase a beer's color, clarity and carbonation. The conical shape helps maintain the beer's head, while the narrow design allows the aromas to reach your nose.

Giant beers

No. 1611 shown

Libbey's Giant Beer glasses have a tall stature, providing an exceptionally pleasing presentation for wheat ales and pale lagers. Designed for draft beer service, these glasses feature a rounded top that holds a generous head of foam.

Pub Glasses

No. 14806 shown

Pub glasses offer the perfect presentation of classic ales, such as IPA, pale ale, brown ale or stout. Featuring a wide mouth to support the frothy head, Pub glasses offer a traditional yet brilliant beer presentation.

Tulip stems

No. 920284 shown

Ideal for presenting lambic and saison, the tulip shape also is very well-suited for specialty fruit beers.

Stemware

No. 3915 shown

These upscale yet robust glasses elevate your presentation of ales and lagers.

Belgian

No. 3808 shown

The rounded bowl of Libbey's Grand Service and Belgian Beer glasses allows for subtle warming of the beer via heat transfer from the hand, while the inward-tapering top captures aromas, enhancing the tasting experience.

Steins and Mugs

No. 5262 shown

Very large and durable, mugs are ideal for proper serving of Oktoberfest and other dark German lagers.

Craft Beers

Show guests that you're serious about beer with style-specific craft beer glasses designed to capture aromas, improve flavor and elevate the perceived value of every pint.

Everyday glassware for extraordinary

Performance

Libbey® designs and manufactures glassware that celebrates versatility and withstands the rigors of the foodservice environment all at once.

Tumblers are a foundation to serve up anything from chilled, infused water to trending beverages, such as kombucha, nitro coffee, and healthy juices and smoothies. When served with your creative embellishments, this glassware is easily transformed into eye-catching beverage presentations that translate into greater returns for you.

Durable and space-saving glasses resist breakage and optimize back of house and back of bar storage.

Our proprietary engineering techniques (see page 354) produce some of the most durable glassware you can buy — exclusive performance-enhancing technology that adds real value.

An elevated experience

Anywhere

With today's increasingly casual and outdoor dining environments, our outdoor-friendly tableware lets you bring an upscale, trendy vibe to just about anywhere – helping you find new opportunities in every corner of your property.

Infinium®

Made of 100% BPA-free Tritan™ copolyester, Infinium combines glass-like beauty, virtually unbreakable design and lighter weight that's easier for your staff to carry. The Infinium selection has been expanded with extensive new sophisticated drinkware and serveware options that let you serve up complete experiences with design flexibility to complement your venue's one-of-a-kind vibe.

Melamine

Our melamine dinnerware and serveware offers the look of porcelain, marble, wood and other materials, giving entrees and appetizers an elevated look and feel without risk of breakage.

Melamine is an easy-to-clean option, dishwasher safe and resistant to the elements. And with several patterns also made in porcelain, it's easy to coordinate your indoor and outdoor service.

Tough enough to serve rooftop, patio or poolside. Stylish enough to bring indoors, too.

Wake™ Serveware

Go big and bold with your presentations with serveware that's lightweight and easier for your staff to carry. Wake™ serveware comes in the same attractive, textured finish as our popular Wake drinkware while providing nesting storage to help you save on space.

Large platters and trendy bowl shapes lend themselves to creating more upscale buffets, available in clear color or new trend-forward onyx-colored storm.

Make a statement
with custom decorating

One goal of food and beverage presentation is to make a lasting impression — to stand out in your customers' minds. With custom decorating, you can separate yourself from the competition and make an impression that lasts all the way to your customers' homes.

We'll fire your name and logo onto your glassware or dinnerware, creating a permanent visual impression that refuses to scratch, chip or wash off. It's an inexpensive way to add variety and spark to your beverage service, and it becomes a memorable, cost-effective advertising vehicle when used in "Keep the Glass" promotions.

How custom decorating works
Simply select up to eight colors from the thousands available in our color palette. Provide us with the name and/or logo you want to appear, and we take it from there. We'll design and produce the final artwork and apply the approved design to your exact specifications.

Ask your Libbey® sales representative about building your brand with custom decorating.

The Libbey
difference

Most customers have the same question when purchasing glassware. Will it hold up? Leveraging 200 years of glassmaking expertise and innovation, Libbey® offers exclusive technology for enhancing glassware performance.

LIBBEY®
FINEDGE®

Libbey's precision manufacturing produces a rim with a minimum bead that is more resistant to unsightly chipping without sacrificing its subtle beauty.

LIBBEY®
DuraTuff®

The special thermal after-process for "press" tumblers and stemware strengthens the upper portion of the glass, the area most vulnerable to breakage. It results in remarkably durable glassware with prolonged service life.

LIBBEY®
HEAT TREATED

A special heating and rapid cooling process strengthens the upper portion of the glass, increasing resistance to thermal and mechanical shock.

LIBBEY®
Sheer Rim™ D.T.E.

A rare combination of elegance and affordability to upgrade beverage service with enhanced service life. This glassware features a beadless edge that is cracked off then polished to produce a fine, durable edge.

Glassware Guarantees

● SAFEDGE® RIM GUARANTEE

For over 85 years, Libbey's proven commitment to quality has been backed by our well-known guarantee, "a new glass if the rim of a Safedge® glass chips." If the rim of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased. Of course, this guarantee does not cover breakage.

■ SAFEDGE® RIM & FOOT GUARANTEE

If the rim or foot of any one-piece stemware item chips, Libbey guarantees to replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

θ HAND BLOWN

Manufactured by hand, giving the glass uniquely individual characteristics. The capacities are noted as minimum- ounce capacities and could vary upward considerably. They should not be used as a standard of measure.

✖ SHEER RIM™/D.T.E. GUARANTEE

Libbey's Sheer Rim/D.T.E. (DuraTemp Edge) stemware and tumblers feature a beadless edge that is first cracked off then polished to produce a fine, yet durable edge. This creates a combination of elegance and affordability in glassware for operators looking to upgrade their beverage service while still maintaining longer service life. Sheer Rim/D.T.E. tumblers and stemware are guaranteed against chippage of the rim.

Lined versions of items have the same dimensions as unlined glass.

The individual product images reproduced throughout this catalog are shown at approximately 25 % actual size.

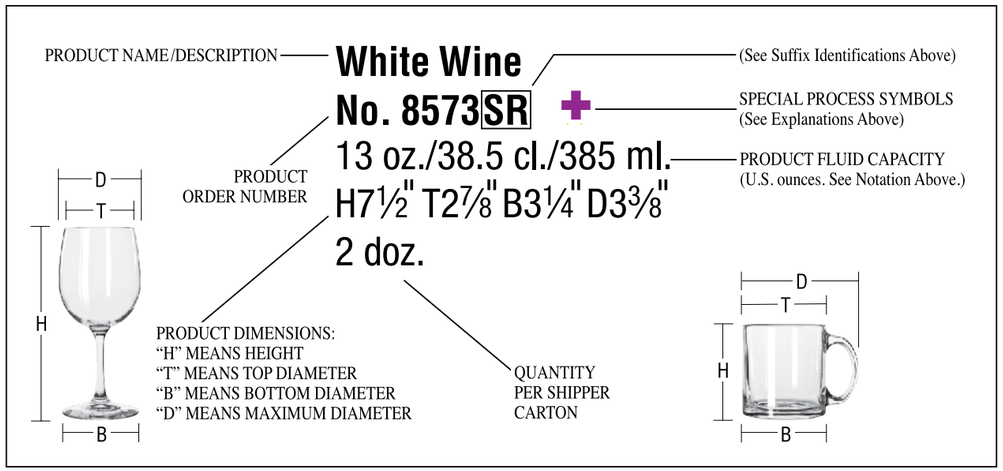

Suffix Identifications
Letter suffix “B” means Cobalt
Letter suffix “HT” means glass is Heat Treated
Letter suffix “CD” means glass has Finedge®
Letter suffix “SR” means glass has Sheer Rim/D.T.E. (DuraTemp Edge)

Glassware capacities are stated in U.S. ounces and are approximate and should not be used as a standard of measure. All fluid capacities are figured to overflow, except for those items decorated with a stated capacity line. Our capacity specifications allow for a tolerance of plus or minus 5%.

Example: A 12 oz. rocks glass could range in over-flow capacity from a minimum of 11.4 ounces to a maximum of 12.6 ounces. For more information regarding product specifications, contact your Libbey sales representative.

1 U.S. fl. oz.=29.5727 ml.=1.04084 Imp. fl. oz.
1 Imp. fl. oz.=28.4123 ml.=0.96075 U.S. fl. oz.

Hand-made product capacities are noted as minimum-ounce capacities and could vary upward considerably. They should not be used as a standard of measure.

Dimensions/Capacities
(listed under each item)

RESERVE BY LIBBEY

Care and Handling

Recommendations for your foodservice establishment

You’ve selected your premium glassware, Reserve by Libbey®, to enhance both your customers’ experiences and your bottom line.

Just as you invest in creating signature drinks and serving top-shelf spirits and wines, invest in your exquisite glassware’s care to ensure its optimal performance.

HD2 RIM AND FOOT LIFETIME GUARANTEE

If the rim or foot of any stemware item chips, Libbey® guarantees to replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

HD2 RIM LIFETIME GUARANTEE

If the rim of any tumbler item chips, Libbey guarantees to replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

TRAINING YOUR STAFF

Empower your staff to handle your fine Reserve by Libbey® glassware carefully and safely. Extend the life of your glass and reduce the potential for injury with these tips:

- Always take glasses to the table by placing them on a tray: **do not carry glasses upside down with the stems between the server’s fingers.** Tray placement not only enhances presentation, but minimizes contact between the glasses.
- Always remove glasses from the table by placing them on a tray. Never place them in a bin. **Do not bouquet stemmed glasses or place flatware in glasses** to speed clearing.
- **Do not stack** glasses when storing.
- When serving iced beverages, always use a scoop – **never scoop ice with the glass.**
- Remove ice and allow the glass to reach room temperature before washing to prevent thermal shock.

CLEANING IN A COMMERCIAL DISHWASHER

Reserve by Libbey® is not only elegant, but durable enough for dishwasher care. Minimize spotting, etching and damage by using the following suggestions:

- Select a proper glass rack to suit the glass height and bowl/foot diameter; **avoid contact between individual glasses**.
- Choose a gentle, phosphate-free detergent to minimize spotting.
- Use a commercial-grade dishwasher that filters water by reverse osmosis or de-ionization to minimize mineral deposits that cause spotting.
- **Follow your dishwasher care and maintenance manual.**

HAND-WASHING

If you choose to hand wash your Reserve by Libbey® glassware, ensure a sparkling presentation by following these recommendations for hand-washing care:

- **Hold glass by the stem near the base of the bowl, not the foot.**
- Use a handled brush to clean inside the bowl.
- Choose a gentle, phosphate-free detergent.
- Rinse with water filtered by reverse osmosis or de-ionization to minimize spotting.
- When using a behind-the-bar system, follow the manufacturer’s instructions.

DRYING AND POLISHING

Present glass that shines! Follow these select methods for an optimal customer experience and an enduring glass life:

- **Don’t put your hand inside the bowl** of a glass when drying or polishing.
- When drying, hold the glass by its stem near the base of the bowl, not by the foot.
- With a microfiber or lint-free cloth, dry the inside of the bowl. Then dry the sides and stem, working your way to the bottom. Finish patting the glass dry at the bottom of the foot.
- If possible, dry glass immediately after wash/rinse to minimize the need to polish.
- When polishing, use the same grip on the glass as when drying. Wrap a slightly moist cloth around a handled brush and rotate the brush around the inside of the bowl. Do not torque/twist the glass; hold it steady as the brush is in motion.

Every Detail Matters

Below each pattern name, you will find each product is listed with key design features, defined below, that can enhance the durability of your dinnerware.

Fully Vitrified: Products are fired at temperatures greater than 2300°F to achieve a stronger and harder material that minimizes absorption of moisture, odor and bacteria.

Polished Foot: Smooth foot helps to reduce plate-to-plate surface scratching.

Highly Polished Foot: Achieves a greater degree of scratch resistance.

Glazed Foot: The highest level of durability, ensuring virtually no plate-to-plate surface scratching.
